The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1- 16, 25 and 26 are rejected under 35 USC 112, second paragraph) as being indefinite as to the term “derivative” as to whether further derivatizations may be included. It is recommended that the term ”compound” be inserted in place of derivative.

Claim 1 is rejected under 35 USC 112, second paragraph) as being indefinite as to the term “expressed” as to whether the scope is limited to only the term when expressed in a molecular structure. The term should be deleted.

Claims 17- 19 are rejected under 35 USC 112, second paragraph) as being indefinite as to the term “effective ingredient”. What does it mean does it mean? The compound is the active ingredient or does it mean an “effective” amount of the active ingredient. Clarification is required.

Claims 17-18 are rejected under 35 USC 112 (first paragraph) The term “drug” is ambiguous. See M.P.E.P. 608.01(p). The claim is a hybrid of method and compositions. If this is a composition it is recommended that an active ingredient in a therapeutic effective amount and a carrier be explicitly incorporated.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 23 and 24 are rejected under 35 U.S.C. 112, first paragraph.

“Prevention” of a peptic ulcer can only be limited to inhibition of the growth of *Helicobacter pylori*. There is no support for prevention of all peptic ulcers irrespective of ideology. Only the prevention of *Helicobacter pylori* induced peptic ulcers is supported.

Claims 20-22 are objected to as depending from rejected base claims.

No claim is allowed.
